To the Attention of:
Tenant and Tenant's General Contractor

RE: Permit by Inspection (PBI) Program
Superstition Springs Center, Mesa, AZ

Dear Sir/Madam:

Macerich is currently utilizing the City of Mesa Annual Facilities and Permit by Inspection (PBI) program for this Property. The PBI program allows the Tenant's General Contractor to accelerate the permit process and start construction in a facilitated timeframe. Instead of a typical 6-8 week permit submittal process, with PBI, the timeframe to receive permit can be as little as 3-5 standard business days.

The attached documents need to be completed by your selected General Contractor and returned to me directly. I will then disseminate the information to the appropriate parties for processing.

In order to utilize the PBI program, it is imperative that the attached documents are filled out correctly, completely and returned to me. We have been advised by the City of Mesa Building Inspector, that in order to utilize the PBI program, it is imperative that the City is not contacted directly for permitting. By doing so, confusion and misinterpretation occurs and the PBI program will not work effectively.

Associated permitting fees are the responsibility of the Tenant or Tenant's General Contractor and in no capacity will the Landlord incur any fees in relation to permitting. Please don't hesitate to contact me with any questions or concerns.

Sincerely,

Justin Lund

Falsification of information on this document for the purpose of evading State Licensing laws is a Class IF misdemeanor pursuant to A.R.S. State Statutes 13-2704. See back of this form for state statute regarding contractor licensure,

A.R.S. State Statute 32-1169; Local proof of valid license; violation; penalty

A Each county, city or other political subdivision or authority of this state or any agency, department, board or commission of this state which requires the issuance of a building permit as a condition precedent to the construction, alteration, improvement, demolition or repair of a building, structure or other improvement to real property for which a license is required under this chapter, as part of the application procedures which it utilizes, shall require that "each applicant for a building permit file a signed statement that the applicant is currently licensed under the provisions of this chapter with the applicant's license number and the applicant's privilege license number required pursuant to section 42-5005. If the applicant purports to be exempt from the licensing requirements of this chapter, the statement shall contain the basis of the asserted exemption and the name and license number of any general, mechanical, electrical or plumbing contractor who will be employed on the work, The local issuing authority may require from the applicant a statement signed by the registrar to verify any purported exemption,

B. The filing of an application containing false or incorrect information concerning an applicant's contractor license or transaction privilege license with the intent to avoid the licensing requirements of this chapter is unsworn falsification pursuant to section 13-2704.
