

## Barricade Graphics Guidelines

## Barricade Material and Programs

- A. Where LL has a barricade recycle program in place, Landlord will install barricade at Tenant's expense. Tenant is required to use Landlord vendor for barricade graphics. In the event installation of barricade is otherwise specified by Landlord or Tenant Lease agreement the following barricade specification must be used:
- Face to be a minimum of 1/4" MDF with 6 mil factory applied vinyl surface. Minimum class C certification for flame spread.
  - Wall system is to be constructed of fully welded extruded aluminum frame material.
  - All seams must be flush.
  - In no event will metal studs/drywall be allowed.

## Barricade Graphics Design Guidelines

- i. Full barricade wrap of retailer graphics to cover 100% of barricade surface (found on pages 4-6 of this manual).
- ii. Exterior Barricades should be either a molded product or ply-wood but should adhere to the same standards above.
- iii. Graphics installed by Tenant must be completed within 3 days of construction commencement.
- iv. Information should be provided to Landlord by Tenant two weeks before lease execution, if graphics are to be installed by Landlord.

- ∴ This option includes covering 100% of the barricade surface with a graphic vinyl wrapping.
- ∴ The vinyl wrapping would include a complete coverage of the front of barricade.
- ∴ Doors and access points would also be considered part of the barricade surface and need to be covered in vinyl fabric treatment.

**Note:** Barricades that exceed 90 total linear feet (all three sides) are given special exceptions. Graphics will be approved on a per project basis. Graphics should be consistent and cover entire barricade. The percentage of graphics will be taken into consideration as per the length and height of the barricade.
